Assured Quality Services Across Varied Sectors

Mtandt products and services can be used by practically almost every kind of business that requires men or material lifting for maintenance and construction purposes.

Manufacturing

Mtandt Group is ever ready to meet customer's diversified demand of industrial maintenance and repair, which requires fall protection systems for inspection, men and material lifting equipments and operation supplies involving various PPEs, tools and innovative products for industrial units.

We provide services for industries like: Steel, Automotive, Pharmaceutical, Food, Consumer durables, Heavy machinery, Cement, Oil & Paint etc.

Construction

We are the leading brand to deal with rental and soles of state-of-the-art Aerial Work Platforms, Material Handling Equipments, Construction Hoists and Rope Suspended Platforms pertaining to developing and maintaining infrastructural projects.

Our services extend to different kinds of projects like: Industrial, Commercial, Infrastructure, Residential

Power

From Aerial work platform to Equipment Handling Crane, Mtandt is the one-stop solution provider for all maintenance requirement in power transmission and distribution sector.

We offer solution for: Nuclear power plant, Hydel power plant, Thermal power plant, Wind Energy power plant, Solar Energy power plant, Power Transmission, Power Distribution

Mining & Drilling

In hazardous production environments like oil rigs and mines, where safety is the primary concern, solutions by Mtandt like Tele handlers for mining industries along with drilling facilities have been the foremost choice by top companies.

We provide machines for the mining of different materials like: Iron ore, coal, Oil & gas, Marble & granite, Metals & minerals

Facility Maintenance

Our ingenious solutions improve efficiency, increase productivity and cuts costs for maintenance activities at airports, malls and hotels and special structures like domes, within tight timelines.

Our services extend to different projects like: Industrial, Commercial, Airports, Ports, Railway Terminals, Shopping Malls, Government, Architectural Monuments, Religious Structures

Telecommunications

In telecommunication industry, main concern is the size of the towers, since the technicians have to work at heightened towers. We offer specialised solution for working at height during the installation and maintenance of:

Towers, Satellites

Utilities & Services

We provide excellent maintenance of all the basic utilities in an infrastructure since most of these utilities are very important and a timely maintenance check is a must.

We provide our services for: Fire & Rescue, Electricity, Water & sewerage, Disaster Management

Defence & Aviation

Indian Defence & Aviation sector always demand utmost robustness and precision. We provide solutions to the various avenues of military be it portable roads, runways, helipads to aircraft docking system, to truck loader cranes, Mtandt is committed to provide world class technology to strengthen this segment.

Our services extend to: Army, Navy, Border Roads Organisation, BSF, Air force, Civil and defence aviation manufacturing, Aircraft maintenance

Railroad

These equipments can serve all your Railroad needs and perform your job quickly and efficiently.

We provide machines that will help in: Rail coach manufacturing and maintenance, Track maintenance, Catenary Maintenance

Products from Mtanda

(Men Lifting & Access Equipments)

Aerial Work Platform

Mtanda supplies and distributes Men and Material Lifting Equipments from world's most reputed manufacturers to ensure precision and safety for work at heights.

- Boom Lift (Diesel, Electric and Bi Energy, Articulated & Straight)
- Scissor Lift (Diesel, Electric, Self Propelled, Push Around and Towable)
- Truck Mounted Aerial Work Platform (Insulated and Non-Insulated)
- Crawler Mounted Aerial Work Platform (Spider lifts)
- Trailer Mounted Aerial Work Platform
- Vertical Lift
- Mast Boom Lift
- Low level Access Platform

Fire & Rescue Truck

With globalization, townships have evolved over time, and so is the need for fire rescue arrangements to protect lives from undesirable situations. Mtanda offers highly sophisticated and modern fire rescue equipment to tackle life-threatening fire accidents.

- Hydraulic Platform
- Turntable Ladder
- Aircraft Crash Tender
- Rescue Tender
- Water & Foam Spray Boom
- Long Distance Water Pump tender

Insulated Aerial Platform

Mtanda supplies and distributes insulated Aerial platform to work on the hotlines from world's most reputed manufacturers to ensure precision, mobility and safety for work at heights.

- Category A, B and C Insulated Truck mounted Aerial Work Platform
- Crane mounted 800 KV insulated Work Platform
- Multi-Purpose Tele - Handler mounted Work Platform
- Robotic Insulator Washers

Rack & Pinion Hoist

When maintaining real-estate and construction projects within timelines becomes a concern, Mtanda provides machinery and equipments by world-renowned brands on rent and sale. These products also follow international safety standards in order to ensure construction sites become absolutely risk-free.

- Passenger Hoist
- Material Cum Passenger Hoist
- Mast Platform

Rope Suspended Hoist

Mtanda provides quality machinery and equipments for rent and sale. These hoists are used for construction or maintenance of high rise buildings.

- Temporary Hoist
- Permanent Hoist
- Tower Hoist (for wind mill and bridge towers)
- Rope Scooter
- Rope Access & Rescue

Testimonial

Our urgent maintenance requirement was only made possible with your equipment. During the one month our safety in-charge has not raised any issue regarding the safety concerns of your equipments. Your team properly gave the usage instruction to our site people which was observed and followed. We appreciate the dedication, guidance and support from your team. - **Kotak Mahindra**

Mobile Access Platform & Ladder

We at Mtanda provide solutions to all manner of height access issues. Our quality products contribute to raising safety standards while improving workplace efficiency and productivity.

- Mobile Aluminium Scaffolding
- Mobile FRP (Fibre Reinforced Plastic) Scaffolding
- FRP & Aluminium Ladder
- Facade Scaffolding
- Boiler Scaffolding
- Tank Scaffolding
- Air Craft Docking Platform
- Rail Coach Docking Platform

Material Lifting Equipment

Tele Handler

Tele-handler is a three in one equipment which can perform job of a crane, forklift and an aerial work platform. They can be fitted with multiple attachments which makes them a very versatile machine.

- Rotary Tele-Handler
- Heavy Duty Tele-Handler
- Fixed Tele-Handler

Truck Loader Crane

They provide all in one solution of loading, transportation and unloading without the need of any external equipments. These are fast in operations that results in improving productivity, reducing cost and increasing profit for customers.

- Knuckle Boom Crane
- Straight Boom Crane
- Log Handling Crane

Mobile Crane

These heavy duty mobile cranes provide both power and precision when you need it. Now no load is too heavy to lift and no height is beyond reach.

- Truck Mounted Crane
- All Terrain Crane
- Rough Terrain Crane
- Crawler Crane
- Mini Crawler Crane

Material Lifting Equipment

These material lifting equipments are high on quality which enhances safety and at the same time increases the productivity.

- Overhead Crane
- Chain Pulley Block
- Chain and Chain Sling
- Ropes and Rope Sling
- Webbing Sling
- Lifting Beams
- Hooks, Shackles, Buckles and Clamps

Testimonial

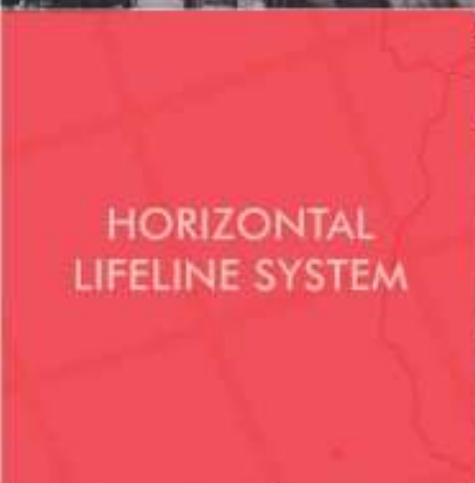

We would like to express our satisfaction for service support provided by you for our entire project. We highly appreciate your efforts especially your professionalism and the microscopic management by the Mtanda Team. We appreciate the timely service provided and required important information regarding the products - **Larsen & Tubro**

In-Plant Material Lifting Equipment

Mtandt offers equipments for shifting variety of materials from one place to another inside the plant. They are robustly constructed, and the range is acknowledged for excellent load bearing capacity, reliable performance, low maintenance and longer functional life.

- Duct Lifters
- Stackers
- Stock Pickers
- Pallet Trucks
- Trolleys
- Tow Trucks
- Fork lifts
- Floor Cranes

Waste Handling Equipment

Mtandt provides equipments which enables transportation and disposal of solid municipal waste in more cost-efficient and environmentally-friendly way

- Portable Waste Handling Compactor
- Hook Loader (Container Handling System)

Portable Roads & Ground Protection

Mtandt brings you the equipments with the latest technology, handpicked products and innovative solutions from across the globe to cater to your special needs.

- Portadeck Portable Road
- Soil-Tec Ground Stabilization and Dust Binding Chemicals

Fixed Access & Fall Protection System

Mtandt offers safety solutions and equipments for saving lives at accident-prone construction sites, areas under industrial maintenance, truck bays, maintenance of tall structures etc.

- Horizontal Lifeline Systems
- Overhead Lifeline Systems
- Vertical Lifeline Systems
- Temporary Lifeline Systems
- Barricades
- Both Flexible (rope type) and Rigid (rail type) lifelines
